

Thomas Jefferson Center for Constitutional Studies

Invites you to attend our 3rd Healing of America Seminar

Attacks on the Charter of Freedom

In Seminar 3, you will study the people, organizations, and groups that are using their time and resources to change the direction of America while serving their own self-interests. Focusing on the positive, this seminar will open your eyes to how far our country has been allowed to drift from the Founders' original principles.

You will receive documentation describing 100 major problems facing America as a result of America's abandonment of Constitutional principles, and you'll learn how the Founding Fathers forewarned us of these problems.

In this third study course, "Attacks on the Charter of Freedom," you will learn:

- 1. Who has been destroying America's public education and why**
- 2. What has happened to the moral fiber of America's society**
- 3. How the principles of freedom in the Constitution have been dismantled**
- 4. The dangers of entangling alliances abroad**

Although this particular seminar focuses on the major problems facing America, you will be pleased to learn that there are solutions. These are contained in the principles of the Constitution, and will be discussed in the fourth and final seminar of this study course.

How much is America and your Freedom worth to you?

**Spend a little time and effort and join us
